

Your Search for a New and Exciting Career  
Ends Here

One of its kind agency in India that trains and certifies skills for travel and hospitality industries, GTX Academy job-readies you for the booming travel market.

Tourism is the fastest growing sectors across the world and trained professionals are in great demand in the domestic and overseas market. Although over 200 million people are currently working in the travel and tourism industries worldwide, yet, according to the statistics released by the World Travel and Tourism Council (WTTC), the global industry is reeling under an acute shortfall of 14 million jobs. At this pace, it might reduce the industry's contribution to global GDP by US\$ 610 billion over the next ten years, cautions WTTC.

This could be a sad state of affairs as labor is the key driver for growth in the travel and tourism supply chain. The quality of service rendered is crucial for building a tourist-friendly reputation for a country in order to make it competitive in the international market.

GTX Academy's travel and tourism training is designed to give you the skills and knowledge to maximize your career opportunities in this industry. By providing quality training, we encourage young individuals to choose travel as a career.

In addition, GTX Academy also conducts customized training for travel companies, so they can save hugely on their induction training for new recruits. With our hands-on, application-based training and a comprehensive, well-conceived curriculum, designed and delivered by veteran travel experts, in a world-class e-learning environment, you will become skilled at selling tourism products directly to the end consumer and/or other travel agents.

Our active career counseling and placement support, will open up a glut of high paying employment opportunities
